Dear Ms. Henney:

I am writing in support of the legal petition #OOP-1211/CP1 referred to above to demand all genetically modified and engineered foods and crops be taken off the market NOW before we have an ecological meltdown: for example, already Canola superweeds have appeared in Canada; Bt crops are damaging beneficial insects and soil organism, soil microorganisms; increased IGF-1 levels of rGBH-derived milk is posing higher cancer risks; fish are being fed rendered animal proteins. HOW SICK ARE YOU GOING TO LET IT BECOME? IT IS YOUR JOB TO PROTECT ALL OF US.

Sincerely,

Kelsey Hauck
